

To Whom It May Concern

In 2007 when we decided to build a new home we began consultation with several home builders in the Calgary area, but were unable to find one that we felt comfortable with.

Just when we were about to give up we stopped by a newly constructed home and asked the occupant who their builder was. The lady of the house invited us in and showed us through her home and raved about the builder who turned out to be Summerbrae Homes. Since our home plan did not come close to the size of the home we had just visited we weren't sure if Summerbrae would even be interested in building our smaller home.

That day we placed a call to Summerbrae and made an appointment for the next day to have Mr. Jason Williamson visit our proposed site. We met and discussed our plan with Jason and got a rough estimate of the cost and immediately felt comfortable with him. At no time did Jason make us feel as though he had no time for us unlike the previous builders we interviewed some of which were down right arrogant. Within a week Mr. Williamson provided us with a more detailed cost for our planned home and following a careful review we committed to have our new home built. To our surprise the very next day the surveyor and excavating crew were on site preparing the building site. The message here is to always go with your gut feel and we certainly have never regretted our choice of builder.

At the time Jason told us the home would take about a year to complete and true to his word the home was completed in 11 months. During the construction phase we spent much time on site and observed first hand the various trades Summerbrae employed and we were impressed with the many skilled trades and their quality workmanship. While there were times we asked for minor changes to our home Jason always accommodated us provided that the changes did not involve any major reconstruction.

As owners of a new Summerbrae built home we would recommend Summerbrae Homes without reservation to anyone thinking of building a new home.

Sincerely,

Mervin and June
